Michelangelo Azzariti

I started my career in 2013, after graduating from the **Professional Institute for Tourist Services**, I started my career as a marketing assistant, responsible for photography and social media in a well-known hotel in the Dolomites.

Over time I cultivate my passion for **PHOTOGRAPHY** until it turns into a job.

In 2013 open myofficial Instagram channel (*@michelangeloazzariti*) where i began to share many of my travels in a reportage style, sharing precious advices to my followers regarding the places i visited. The result he obtained through the years is a solid fan base built thanks to the empathic component and the strong aesthetic sense that characterizes every my shot.

Today i collaborates with some travel websites as a travel editor and as a travel influencer for various brands, hotel structures and tourism bodies, photographer for important Italian bloggers.
